

MrBuggy 7. Defect Summary.

Ver. 0.95

This is a BETA version. If you find any defect in defects, let us know by sending an email to testingcup@testingcup.pl.

Scoring

The score model.

Score [points]	Category	Category description
-5 [minus five points]	Not a defect	A report which define the correct operation of the application as a defect; defect from the area excluded from the tests; reporting accepted issues.
-1 [minus one point]	Duplicate	A defect, which has already been reported in another defect report.
0	Incomprehensible	An incomprehensible report whose content does not allow to identify a defect.
0	Suggestion	A proposal for a change or adding a new functionality, or suggestion for a change in the area of usability.
0	Not reproducible	A defect which cannot be reproduced by the Judging Committee.
0	Typo	All language defects.
1	Usability / UX	Defects such as: incorrect display of characters, behaviour incompatible with UX standards, incomprehensible solutions, incorrect display of items, inconsistent behaviour of similar or the same elements of the application.

3	Error message	An erroneous, misleading or incorrectly behaving error message or no message at all. It applies to bugs displayed in a pop-up as well as validation messages. A defect in non-critical functional area.
6	Security / Functional defect / Workaround available	Security issues; there is a workaround for existing functions that allows operations to be performed, which should not be possible to do, including disclosure of data. A functional bug. Incorrect application actions but with a workaround.
10	Critical defect / Damage of data	An incorrect application behaviour combined with the inability to perform a part of the operation; incorrect behaviour leading to damage or deliberate deletion of data; deleting other users' data; a defect that implies further important defects. Cases in which the application turns off.

List of accepted issues that should not be reported

ID	Title	Description
AI1	[Units] Search doesn't work with the Polish characters	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Go to units page 3. Create new unit with polish character (e.g. ZĄB) 4. Search for newly created unit by name (enter "ząb" in search input) <p>Actual result: No results are shown.</p> <p>Expected result: Created unit is shown.</p>
AI2	Missing validation error for Confirm Password field	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Open Users tab 3. Click on the New Admin/New employee/New provider button 4. Click on the Save button <p>Actual result: All fields marked as required have validation error message displayed, except one - Confirm password.</p> <p>Expected result: All fields marked as required have validation error message displayed.</p>
AI4	[API] Inconsistency in states in API and GUI	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Change by API CR status to 'To clarify' (request PUT '/cr/ID/to-clarify') 2. Using API take list of CRs

		<p>Issue: In response status 'To clarify' is reported as 'ToComplete'.</p>
A15	[Profile] Validation errors during the first profile edit	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Start the application with clean DB 2. Create the first admin user 3. Log in as the admin 4. Click 'Profile' 5. Click 'Save' <p>Actual result: Validation errors for the email and phone number fields are displayed, the first name of the admin user is set to First, last name is set to Admin.</p> <p>Expected result: During an account creation a user should be asked to provide all the required data.</p>
A16	Validation for the phone number and email fields	<p>According to the documentation there should be no validation on the phone number and email fields, on API and UI level.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Edit Profile / Add or edit Employee 3. Fill in incorrectly the Phone number (Employee) field <p>Actual result: Validation error for phone number is displayed.</p> <p>Expected result: There should be no extra validation on the phone number field, phone number is required (cannot be empty).</p>

AI7	An exception after exporting a hidden file to XML	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin or provider 2. CR list screen. 3. Export data to XML, trying to save it with the name some already existing, hidden file. <p>Actual result: An unhandled exception which closes the application.</p>
AI8	Shortcut "ctrl + o" allows to open browser	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Open MrBuggy 2. Use a keyboard shortcut "ctrl + o". <p>Actual result: internet browser is opened in MrBuggy window</p> <p>Expected result: nothing happens, this shortcut should be blocked</p>
AI9	Search option on any screen works incorrect	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as any user 2. Open any screen with search option, e.g. CRs list 3. search for any existing CR by providing only part of searched phrase (example CR with name "example CR" - search by "examp") 4. add space to searched phrase "examp " <p>Actual result: searched CR will be displayed in list of result, after adding another character after space, it won't be "examp a"</p> <p>Expected result: After providing a space, searched CR should not be displayed</p>
AI10	Search doesn't work for uppercase Polish letters	Occurs on Users/Provider/CRs screens.

		<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Create new provider with uppercase Polish character in name (e.g. "AŁA") 2. Search for created provider using only used Polish character (e.g. "Ł") <p>Actual result:</p> <p>no results are returned</p> <p>Expected result:</p> <p>created provider is returned in search results</p>
AI11	[New CR] Invisible error messages on the screen	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in to application as employee. 2. Open CRs tab and click New CR button 3. Fill in most of the fields but left empty any required field at the top of form (e.g. Number) and click Save button. <p>Actual result:</p> <p>user doesn't see any error message, new CR is not created</p> <p>Expected result:</p> <p>user should be scrolled to input that wasn't filled and see a validation message</p>
AI12	Pages are not responsive (maximize screen)	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. open MrBuggy 2. press ctrl++/ctrl+- few times to maximize/minimize page content <p>Actual result:</p> <p>Page is not responsive, in some situations text doesn't fit buttons/tables etc.</p> <p>Expected result:</p> <p>Page design/elements on page are responsive</p>

AI14	[API] 404 returned for not allowed methods	<p>Invalid status code is returned when sending a request with not supported method, example: send PATCH request to /CR endpoint.</p> <p>Steps to reproduce: 1. Send a patch request to "/CR" endpoint</p> <p>Actual result: 404 status code is returned</p> <p>Expected result: 405 status code is returned with information about allowed methods</p>
AI15	[API] 404 returned instead of 403	<p>Incorrect status code is returned when user is trying to access data to which doesn't have enough privileges. Example: employee tries to access list of all users.</p> <p>Steps to reproduce: 1. Send a GET request to "/user" endpoint as an employee user</p> <p>Actual result: 404 status code is returned</p> <p>Expected result: 403 status code is returned</p>

List of defects reported

No.	TITLE	CATEGORY	DESCRIPTION	KNOWN
1	CR list – missing fields in filter	Error message	<p>Based on documentation in filter following fields should be available:</p> <ol style="list-style-type: none"> 1. Status 2. Creation date from 3. Creation date to 4. Last change date from 5. Last change date to 6. Provider 7. CR's name 8. User <p>In application fields 2,3,4,5,8 are missing</p>	YES
2	Clearing "Phrase" field doesn't reload list result	Usability / UX	<p>Clearing "Phrase" field by pressing "X" icon in "Phrase" field doesn't reload searched results. Occurs on all pages with lists.</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Open Provider tab 3. Add few providers 4. On Provider tab enter some text into "Phrase" input 5. Click on "x" button inside input field to clear entered phrase <p>Actual result: Entered text is deleted, results are still matching entered phrase.</p> <p>Expected result: Entered text is deleted, proper results are displayed.</p>	YES

3	Valuation CR - NaN in Amount field	Usability / UX	<p>NaN is displayed in amount field after clearing "Man-days" input</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as provider 2. Open CR list 3. Click on Valuation button for a CR which is in Forwarded state 4. Clear Man-days input <p>Actual result: Amount changes to NaN</p> <p>Expected result: Amount remains 0, if user enters invalid value in Man-days field Amount should not be recalculated</p>	YES
4	CRs, Users - missing pagination	Error message	<p>Based on documentation – list of CRs and users should be paginated (20 records on one page)</p> <p>This functionality is missing in Mr Buggy.</p>	YES
5	[New CR] fields accept too many chars	Error message	<p>Steps for reproduction:</p> <ol style="list-style-type: none"> 1. Log in as employee 2. Create new CR using data with too long text (more than 200 characters) <p>Actual result: Data are accepted, it is possible to enter text with 250 characters</p> <p>Expected result: According to documentation, fields Business case, Description of Change, Financial sources, Related production errors - should be limited to 200 characters</p>	YES

6	[Export] exception during saving the file	Critical defect / Damage of data	<p>Preconditions</p> <ol style="list-style-type: none"> 1. At last one CR in state: 'Approved' or 'To order' exist <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin or provider 2. Go to list of CRs' 2. Choose export to JSON or XML 3. In file browser click "Make new folder" and after entered the name click 'Ok" (don't use enter to confirm) <p>Actual result:</p> <p>Exception is thrown. Log from error: Exception has been thrown by the target of an invocation. at System.RuntimeMethodHandle.InvokeMethod(Object target, Object[] arguments, Signature sig, Boolean constructor) at System.Reflection.RuntimeMethodInfo.UnsafeInvokeInternal(Object obj, Object[] parameters, Object[] arguments) at System.Delegate.DynamicInvokeImpl(Object[] args) at System.Windows.Forms.HtmlShim.FireEvent(Object key, EventArgs e)</p> <p>Expected result:</p> <p>File is exported, no error is thrown</p>	YES
---	---	-------------------------------------	---	-----

7	[Export] Special characters corrupt JSON file	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Add new CR, put special characters reserved for JSON file structure id CR description. Example: <pre>{ "test":"zadzwoń po jsona" }</pre> 2. Save CR and process to state Approved 3. Export JSON file 4. Open JSON file <p>Actual result: After file validation for example in https://jsonformatter.curiousconcept.com problems with file and additional " chars are reported.</p>	YES
8	Missing actions for admins	Security / Functional defect / Workaround available	<p>Documentation:</p> <p>"IT Analyst:</p> <ul style="list-style-type: none"> • Viewing all CRs in state To clarify and: <ul style="list-style-type: none"> o After adding mandatory public comment process it into state Clarified (8) or Rejected (9) " <p>Currently this functionality is missing.</p>	YES
9	File exported by provider - missing provider	Error message	<p>Documentation:</p> <p>"IT Analyst:</p> <ul style="list-style-type: none"> • Viewing all CRs in state To clarify and: <ul style="list-style-type: none"> o After adding mandatory public comment process it into state Clarified (8) or Rejected (9) " <p>Currently this functionality is missing.</p>	YES

10	[API] user can read archived CRs	Security / Functional defect / Workaround available	<p>Preconditions: Archived CRs exist.</p> <p>Steps to reproduce: 1. As employee user send a request to API to get data of archived CR (GET '/cr/ID', '/cr/ID/comments', '/cr/ID/history', '/cr/ID/releted - where ID is an ID of archived CR)</p> <p>Actual result: CR data are returned</p> <p>Expected result: Data are not returned</p>	YES
11	Invalid providers list while editing cloned CR	Error message	<p>During edition of a cloned CR, it's possible to select provider assigned to original CR.</p> <p>Steps to reproduce: 1. Log in as admin 2. Open CRs tab 3. Clone any CR 4. Edit cloned CR</p> <p>Actual result: it's possible to select provider assigned to original CR</p> <p>Expected result: As it is not possible to select provider assigned to original CR while cloning CR, it's should not be possible during edit of cloned CR either.</p>	YES

12	Related CR's - replaced values in table	Usability / UX	<p>In Related CR table, values in Status and Provider columns are replaced.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Open CR list 3. Clone any CR 4. Open cloned CR <p>Actual result:</p> <p>In Related CR table, values in Status column we can see Provider name, in Provider column we can see CR status.</p> <p>Expected result:</p> <p>Proper values are displayed in Related CR table.</p>	YES
13	User deleted by API is not logged out from app	Security / Functional defect / Workaround available	<p>User deleted by API is not logged out from app and still can perform and complete any action.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. log in to application as any user 2. send a DELETE request to "/user/ID" as admin providing ID of logged in user from step 1 3. do any action on application (add/edit/... CR) <p>actual result:</p> <p>action is completed successfully</p> <p>expected result:</p> <p>user is logged out from application and cannot complete an action</p>	YES

14	[API] no validation for changing forwarded CR	Usability / UX	<p>User with Provider role can change status of CR from Forwarded to Forwarded using an API</p> <p>Precondition: A CR with Forwarded status exists</p> <p>Steps to reproduce: 1. Send PUT requests to "/cr/ID/forwarded" as provider user (where ID is an ID of forwarded CR)</p> <p>Actual result: 200 status is returned, status is changed from forwarded to forwarded</p> <p>Expected result: It should not be possible to change status from forwarded to forwarded</p>	YES
----	---	----------------	--	-----

15	[API] invalid number of comments is returned	Error message	<p>User with employee role can see number of all comments added to CR - public and private ones. Employee should see only public comments.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. create CR 2. approve CR as admin 3. add a private comment to this CR as an admin 4. add comment to this CR as employee 5. send GET request to "/cr/ID" (where ID is an ID of created CR) authorizing as employee user <p>actual result: data of CR are returned, number of CR comments is 2</p> <p>expected result: data of CR are returned, number of CR comments is 1</p>	YES
16	[API] /cr/ID/related doesn't return any related CR	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. log in as employee 2. create new CR 3. log in as admin and approve CR 4. clone approved CR 5. send a GET request to "/cr/ID/related" providing ID of CR from step 4 <p>Actual result: no CR is returned in response</p> <p>Expected result: related CR (from step 2) is returned</p>	YES

17	[API] [GUI] Admin can't create new CR	Security / Functional defect / Workaround available	<p>According to documentation admin can:</p> <ul style="list-style-type: none"> - Creation of new CR (1). <p>Actual result: Admin can't create new CR</p> <p>Expected result: Admin can created new CR</p>	NO
18	[API] Crash app after deleting non existing user	Critical defect / Damage of data	<p>Application crashes after deleting of not existing user by API</p> <p>Steps: send DELETE /user/ID with non-existing ID e.g. /user/100</p> <p>Expected result: Response with status 404</p> <p>Actual result: Exception occurs: "Odwołanie do obiektu nie zostało ustawione na wystąpienie obiektu" Application crashes</p>	NO
19	[API] Admin may DELETE/Block his account	Security / Functional defect / Workaround available	<p>1. Send DELETE request to "/user/ID" endpoint with Admin app ID</p> <p>Actual Result: Admin account is deleted, however Admin may use his account to the moment of logout</p> <p>Expected Result: Admin should not be able to use his account after it is deleted straight away.</p>	NO

20	CR number - should be readonly and fulfil by automat	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log-in as employee 2. Go to CRs 3. Click "New CR" 4. Put anything in the Number field (including letters) 5. Fill other fields. 6. Save <p>Actual result: You can put any character (including letters and special characters). It's a read-write field.</p> <p>Expected results: Number field should be fulfilled automatically and should be read-only. It should contain integer only.</p>	NO
21	[API] Can't add RelatedProductionErrors	Error message	Can't add RelatedProductionErrors field via API. This field is available in GUI.	NO
22	Wrong order of fields in CR form	Usability / UX	<p>Wrong order of fields</p> <p>Steps:</p> <ol style="list-style-type: none"> 1. Add new or edit CR <p>Actual results:</p> <ul style="list-style-type: none"> - name, email, phone number, unit <p>Expected results:</p> <ul style="list-style-type: none"> - number, phone number, email, unit 	NO

23	Errors in validation of First name field	Error message	<p>Errors in validation of First name field:</p> <p>It's possible to use '-' char in the First Name. According to the documentation, the '-' char should not be valid It possible to put 50 signs - according to specification 40 is expected</p> <p>Steps to replicate: 1) Log in as an admin user 2) Profile > Edit 2) Put char text with sign - or 45 signs.</p> <p>Actual result: FirstName accepted</p> <p>Expected result: Validation error should be thrown and the First Name should not be accepted</p>	NO
24	Admin can't edit profile by user tab	Usability / UX	<p>Steps to reproduce: 1. Log in as Admin 2. Open Users tab Workaround: edit data via profile</p> <p>Actual result: As an admin I can't change anything in my profile Expected result: Admin should have rights to also edit his profile</p>	NO
25	Double click in checkbox - text END marked	Usability / UX	<p>Steps to reproduce: 1. Open form "Add CR" 2. Double click on flag "END"</p> <p>Actual result: Double click mark checkbox and text "End" Expected result: After double click checkbox is marked and unmarked</p>	NO

26	Errors in validation of Password field	Error message	<p>Errors in validation of Password field:</p> <ul style="list-style-type: none"> - Capital letters are not required - Wrong length required <ol style="list-style-type: none"> 1. log in as an admin 2. edit user with password 123456! 3. user is edited <p>Actual result: Password can be set without capital letter and too short Expected result: Password cannot be set without capital letter and min 8 digits</p>	NO
27	Errors in validation of Last Name field	Error message	<p>According to the documentation, the validation should only check if the Last Name contains only letters, spaces and '-' char.</p> <p>Steps to replicate:</p> <ol style="list-style-type: none"> 1) Log in as an admin user 2) Profile > Edit 2) Enter '-John' in LastName field > Save <p>Actual result: Last Name must start with letter validation error is thrown</p> <p>Expected result: Last Name should be accepted as it contains only letters, spaces and '-' char</p>	NO

28	CR in state NEW: Users cannot add comment	Security / Functional defect / Workaround available	<p>User cannot add comment to NEW and DRAFT CRs</p> <p>Step to reproduce:</p> <ol style="list-style-type: none"> 1. Open in single view CR in state Draft / New 2. Try to add comment <p>Actual result: There is no field to add the comment. The action is not possible to do.</p> <p>Expected result: According to specification: "Adding public and private comments to all visible CRs". All visible CRs.</p>	NO
29	Error in validation of CR's Name field	Error message	<p>Steps:</p> <ol style="list-style-type: none"> 1. Log in to the app as an employee 2. Go to CRs section 3. Click at "New CR" 4. Type 21 signs in the number field <p>Actual result CR is saved with more than 20 signs in the number field</p> <p>Expected result According to requirements, number field should have maximum 20 signs</p>	NO

30	Can't view CRs in 'to clarify' state	Security / Functional defect / Workaround available	<p>Can't view CRs in 'to clarify' state</p> <ol style="list-style-type: none"> 1. Open MrBuggy 2. Login as employee 3. Create CR 4. Login as admin 5. Change status of CR to clarify 6. Login as employee <p>Expected: Viewing CRs in state To clarify and after adding mandatory public comment Employees may process it to state Clarified or Rejected.</p> <p>Actual: No actions in employee profile. CR is not visible in provider profile.</p>	NO
31	Employee can delete CRs in state: new and approved	Critical defect / Damage of data	<p>Step to reproduce:</p> <ol style="list-style-type: none"> 1. Employee has CRs created in all states. 2. Wants to delete them. <p>Actual result: Employee has rights to delete CRs in state: Draft, New and Approved.</p> <p>Expected result: Deleting CRs in state Draft.</p>	NO

32	Non-accepted value auto-inserted in Price	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1) Launch the software 2) Log in as an Admin 3) Click on "Providers" from the Menu 4) Select "New" 5) Add a name of preference under "Name" 6) Add the value 9999999999.99 under "Price" 7) Click on "Save" 8) Try to edit the Provider just created <p>Actual Result: In the "Price" field a comma appears in place of the dot and an error pops out when saving, even if no changes have been made. 9999999999,99</p> <p>Expected Result: 9999999999.99</p>	NO
33	Possible to transition new -> new, missing DRAFT	Usability / UX	<ol style="list-style-type: none"> 1. Create and save a CR 2. Open this CR and check the End button 3. Open the CR again and check the End button again <p>Issue: It's possible to transition CR from New to New. There is no state Draft missing in history of CR.</p> <p>Expected: Draft state should be marked between "New" and "New" states because of editing of CR changes a state from NEW to DRAFT</p>	NO

34	Missing focus in forms	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Open any form <p>Expected results:</p> <p>Focus is set on first editable field</p> <p>Actual results:</p> <p>No focus on any field.</p>	NO
35	Phrase search should have length 20 chars	Usability / UX	<p>Steps to reproduce</p> <ol style="list-style-type: none"> 1. Login as a Admin and go to the Users page 2. Start typing something in Phrase field <p>Actual results</p> <p>User is able to type in this field more than 20 chars</p> <p>Expected results</p> <p>Based on the specifications:</p> <p>Length for this field should be 20</p>	NO
36	OS shortcuts should be blocked	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Open MrBuggy7 App 2. In app click Ctrl + N or Ctrl + P or F5 on your keyboard - or any other os shortcut <p>Actual result:</p> <p>OS shortcuts work</p> <p>Expected result:</p> <p>Nothing should happened, those shortcuts should be blocked</p>	NO

37	"Priced" to "To clarify" transition	Security / Functional defect / Workaround available	<p>PRICED to TO CLARIFY is possible but not expected based on specification</p> <p>Steps:</p> <ol style="list-style-type: none"> 1. Create CR and go through flow till status PRICED 2. Go into that CR with Admin <p>Actual result: To Clarify action is available</p> <p>Expected result: To Clarify action is not available</p>	NO
38	Unable to delete provider with assigned user	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as Admin user; 2. Navigate to CR with Provider1 user assigned; 3. Change Provider1 to other Provider user; 4. Navigate to Provider screen <p>Expected results: There is no Delete button f to delete provider</p> <p>Actual results: Button to delete provider is available</p>	NO

39	Unable to delete unit with assigned user	Error message	<p>Steps:</p> <ol style="list-style-type: none"> 1. Create unit 2. Create some users 3. Assign some users to this unit 4. Open units view <p>Actual result There is no "Delete" button in "Actions" column.</p> <p>Expected result There should be "Delete" button in "Actions" column (according to documentation).</p>	NO
40	CR in some statuses should be marked "bold"	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Login as admin 2. Go to CRs page 3. Create CR in state To clarify or priced <p>Expected result: CR status should be marked (can be bold)</p> <p>Actual Status: CR status is not marked</p>	NO
41	Provider is not displayed in edit provider profile	Error message	<ol style="list-style-type: none"> 1. Log in as a provider. 2. Open current provider profile. 3. Edit profile. <p>Actual result: Provider field is not available on edit profile screen for provider.</p> <p>Expected result: Provider field should be available on edit profile screen for provider.</p>	NO

42	Admin can Clone the CR with Approved status	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as an Admin 2. Enter CR list 3. Use action 'Clone' on CR with status 'Approved' <p>Actual result: Admin can Clone the approved Cr.</p> <p>Expected result: Admin should not be able to clone the Approved CR.</p>	NO
43	[API] Admin can create provider with empty name	Security / Functional defect / Workaround available	<p>Admin can create provider with empty (only whitespace) name via API</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Create a new POST request /provider with below body: - name: " " - - price 2 2. Click Send <p>Expected result: - API shouldn't create a provider without a name</p> <p>Actual result: - API allows creation of a provider without a name while using Postman</p>	NO

44	State 'Completed' instead of 'Clarified'	Error message	<p>Instead of 'Clarified' state we get 'Completed'. According to specification this state should be 'Clarified'</p> <p>Steps:</p> <ol style="list-style-type: none"> 1. Navigate to CRs screen 2. Try to change state 'To clarify' to 'Clarified' <p>Expected results: Status name is 'Clarified'</p> <p>Actual results: Status name is 'Completed'</p>	NO
45	[API] Employee can see/edit/delete not his own CR	Critical defect / Damage of data	<p>Employee can see/edit/delete not his own CR but also created by other users</p> <p>Expected result employee can see/edit/delete only own CR's</p> <p>Actual results employee can see/edit/delete all created CR's</p>	NO
46	[API] possible to authorize with any password	Critical defect / Damage of data	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Have a admin account with username: admin and password: admin1! 2. Make base64 encoding on this string: " OR ""=" (liBPUiAilj0i) 3. Make POST /user/admin request with header Authorization: YWRtaW4=:liBPUiAilj0i (first part is encoded "admin" username, second is ANY string) <p>Expected result: API should return "unauthorized"</p> <p>Actual result: New admin account is created</p>	NO

47	End CR doesn't move CR into readonly mode.	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Login as employee user 2. create new CR 3. check "End" checkbox and save 4. Open previously created CR <p>Actual result: CR is not in readonly mode, user is still able to update/edit it</p> <p>Expected results CR is in read-only mode, edition is not possible</p>	NO
48	[API] Clone of CR has incorrect dates	Error message	<p>Steps:</p> <ol style="list-style-type: none"> 1. Create CR and move to status New 2. Perform /cr/##/clone using Admin credentials on CR from preconditions 3. Clone CR from Preconditions <p>Defect: In response of Clone request, Creation Date and Modified date show 0001-01-01T00:00:00</p>	NO

49	CR Status doesn't change automatically by export	Security / Functional defect / Workaround available	<p>Status of CR is not changed after exporting. According to documentation status should be changed.</p> <p>Steps to reproduce: 1. Create CR in status 'To order' or 'Approved' 2. Export those CR</p> <p>Expected result: Accordingly to documentation page 3 status of CR should change to 'Forwarded' or 'Process'</p> <p>Actual results: Status is not changed</p>	NO
50	Double click on list is not working	Usability / UX	<p>Double click on list is not working</p> <p>Steps to reproduce (for CR): 1. Login as admin 2. Go to CRs page 3. Double click on any CRs</p> <p>Expected result: Single CR should be opened</p> <p>Actual result: Nothing happens</p>	NO

51	Too long text is not wrapped in CR's view	Security / Functional defect / Workaround available	<p>Too long text is not wrapped. Errors occurs in fields and comments.</p> <ol style="list-style-type: none"> 1. Log in as employer 2. Go to CR 3. Create new CR position with long Business case/Description/Financial sources description 4. Save <p>Actual Result: Long descriptions falls onto ID positions Expected results: Descriptions should not fall onto other objects</p>	NO
52	[API] Sending HEAD to / crashes application	Critical defect / Damage of data	<p>Sending HEAD to / crashes application. HEAD is usually used before GET as part of API discovery routine.</p>	NO
53	Password not blocked after few attempts	Security / Functional defect / Workaround available	<p>Description/steps:</p> <ol style="list-style-type: none"> 1. Login screen. 2. Input incorrect password more than 10 times. <p>Actual result: The account stays unblocked - we can use this to DDOS type of attack Expected result: There should be a password lock feature to avoid exploitation</p>	NO
54	Admin can't add comments to CR in status Draft	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as administrator 2. Open CRs tab 3. Open any CR in Draft status <p>Actual result: No possibility to add comments</p> <p>Expected result: Admin can add comments to any CR, including CR in Draft status</p>	NO

55	Active button has different colour	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Open Users tab 3. Edit any user and set flag "Status" to "Blocked" 4. Open Users tab <p>Actual result: Active button has different colour than other buttons.</p> <p>Expected result: All buttons should be in the same colour to keep UI consistency</p>	NO
56	Typo 2	Typo	<p>1. Add new CR</p> <p>2. Insert special characters like "[]]"</p> <p>3. Add other data ad save</p> <p>Actual result: Validation test: Username can only consist of letters, digits..."</p> <p>Expected result: Validation test: Name can only consist of letters, digits..."</p>	NO
57	Filtering is cleared.	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in to the app as admin 2. Go to Users 3. Apply some filters 4. Active or block some user <p>Actual result: User is active/blocked and filtering is cleared</p> <p>Expected result: User is active/blocked and filtering is not cleared</p>	NO

58	[API] it's possible to create admin without status	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Send a POST request to create new admin user without status parameter in request body <p>Actual result: New admin account is created, 200 status is returned</p> <p>Expected result: New admin account is not created, 400 status code is returned</p>	NO
59	Unexpected option for CR in Finished status	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as admin 2. Open CRs tab 3. Open any CR in Finished status <p>Actual result: It's possible to send CR status to Received</p> <p>Expected result: According to documentation, it should be possible to change status only to Archived</p>	NO
60	Automatic archiving in Received state	Security / Functional defect / Workaround available	<p>Set Automatically Archiving for Rejected, Draft and Finished.</p> <p>Actual result: This functionality works only for status Rejected, Draft and Received.</p> <p>Expected result: According to documentation: Rejected (16), Draft (17) and Finished (18) are automatically moved into state Archived;</p>	NO

61	[API] No Role or Status in History	Security / Functional defect / Workaround available	<p>Steps:</p> <ol style="list-style-type: none"> 1. Send POST request to /cr endpoint with valid request body authorizing as Employee 2. Send PUT request to /cr/##/new endpoint where ## is Id of created CR 3. Send GET request to /cr/##/history as Admin <p>Actual result: In history Role and Status of User performing changes is "None".</p> <p>Expected result: History should contain info about Role and Status of user who made the changes to CR</p>	NO
62	Validation errors don't disappear	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. log in as admin 2. Go to Automatic archiving tab 3. Fill all fields with 61 value 4. Click Save button 5. In 2nd and 3rd input change value to 60 6. Click Save button <p>Actual result: Validation errors are still displayed for 2nd and 3rd input, even when provided values are correct</p> <p>Expected result: Only validation error for 1st input is displayed</p>	NO

63	Additional filter for admin on CRs list	Usability / UX	<p>Field that is not specified in the documentation is available in admin mode.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as an admin. 2. Go to CRs list. <p>Actual results:</p> <p>Among available fields there is a filter "All employees" that is not described in documentation.</p> <p>Expected results:</p> <p>There are only filters specified in documentation</p>	NO
64	[CR] missing validation for Comment	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. log in as employee 2. Create new CR providing more than 200 characters in "Business case" input 3. Edit newly created CR 4. In "Comment" field enter more than 200 characters <p>Actual result:</p> <p>It's possible to enter more than 200 characters into 'Comment' field</p> <p>Expected result:</p> <p>According to documentation "Comment" field accepts max 200 characters</p>	NO

65	Typo 1	Typo	<p>Steps to reproduce: 1. log in as admin</p> <p>Actual result: In top menu there is a tab called CRs</p> <p>Expected result: According to documentation this tab should be named as CRs list</p>	NO
66	[API] invalid parameter name when updating CR	Usability / UX	<p>Request body for creating or updating CR has a parameter called Reason, while in application the same field is called Business case.</p> <p>Steps to reproduce: 1. send a POST request to /cr endpoint as employee with body:</p> <pre> {"number": "2", "name": "first", "description": "fancy description", "reason": "for fun", "financial_sources": "petro dolars", "provider_id": "1" } </pre> <p>Expected result: same name for parameter and application field</p>	NO

67	Employee cannot edit unit	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Login as employee. 2. Open profile view. 3. Click Edit button. 4. Change the unit. 5. Click Save button. <p>Actual result: On profile view unit didn't change.</p> <p>Expected result: Employee should be able to change unit.</p>	NO
68	"New CR" button is not located in top menu	Usability / UX	<p>"New CR" button is in wrong place. According to specification it should be located in top menu.</p> <p>Step to reproduce:</p> <ol style="list-style-type: none"> 1. Open CRs <p>Actual results: "New CR" button is located in "CR list"</p> <p>Expected results: "New CR" button is located in top menu</p>	NO

69	Priced to 'to order' - lack of transition	Security / Functional defect / Workaround available	<p>It is not possible to proceed to 'to order' status' from the 'priced' status. Instead the only available option except 'rejected' is 'to clarify.'</p> <ol style="list-style-type: none"> 1. Go to CR tab as admin 2. Find a CR in 'Priced' status. 3. Notice only available options are Reject and To Clarify. 4. After clicking 'To Clarify' the status is changed to 'to clarify' 5. Option 'approve' is not available. <p>Actual result: Wrong transitions available, lack of Expected results: All expected transition should be available</p>	NO
70	[API] ability to retrieve deleted CR	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Delete CR from API level, by providing its ID in URL call 2. Immediately go to MrBuggy's CR's view and open one you've deleted 3. Change nothing, but click "Save" only <p>Actual result: User is able to save the form and retrieve the CR that should have been deleted.</p> <p>Expected result: User should be prompted that this particular CR was already deleted or scheduled for deletion.</p>	NO
71	Information about user is refreshed after relog	Error message	<p>Step to reproduce</p> <ol style="list-style-type: none"> 1. login as for example employee 2. update employee's profile using Postman <p>Actual results: information about user is refreshed after logging out and logging in Expected results: information should be updated in real-time</p>	NO

72	[API] Possible to use restricted characters	Error message	<ol style="list-style-type: none"> 1. Create provider with post method 2. use name: ??? 3. in return we get {"Success":false,"Errors":[{"Field":"name","Message":"Username can only consist of letters, digits, spaces and characters: _-"}]} 4. use name: ???123 5 operation ends with success 	NO
73	Space removed from password edit/creation	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. new user creation screen 2. create a password with space either at the beginning or the end of it, e.g. "password1! " 3. Create the user 4. Try to log in as the newly created user with the set password <p>Actual result: Password for this user will be missing space character. The user can proceed only when removing the space character</p> <p>Expected results: User can login using original password (with space on the end)</p>	NO
74	Inconsistent error messages for price field	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Log in as an Admin 2. Go to Providers Tab 3. Add new provider 4. In field price add "a" and confirm 5. Change on number "0" and confirm <p>Actual result: 1st error message: "Invalid number format. The correct format is X.Y where X is a minimum of one digit and up to 10 digits and Y is a maximum of 2 digits", 2nd error message: "The field takes numbers from 0.01 to 9999999999.99 inclusive"</p> <p>Expected result: Error messages should be consistent</p>	NO

75	[API] GET /user does not return full users data	Error message	<p>Steps:</p> <ol style="list-style-type: none"> 1. Make GET /user request with admin authorization <p>Expected Results:</p> <p>Users phone numbers and emails present in response body</p> <p>Actual Result:</p> <p>Users phone numbers and emails are not present in response body</p>	NO
76	[API] Validation Provider name	Not reproducible	<p>Create Post request with 260 characters (POST /Provider).</p> <p>Result: Accepted</p> <p>Expected result - max value message is 255, but 260 was accepted.</p>	NO
77	Incorrect validation error for "User Field"	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Create new admin user 2. Open User tab 3. Click Edit button on created user 4. Fill Username field using incorrect value (example: Admin 1) 5. Click on "Save" button <p>Actual results:</p> <p>Validation error: Username can only consist of letters without diacritic characters , digits and characters: _-</p> <p>Expected Results: Validation error should contain information that username should be unique, should contain max 20 sign and should be no spaces</p>	NO

78	Wrong information for new unit validation	Error message	<p>Issue with validation of new unit field.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Open MrBuggy and click 'New' button 2. Enter '@' to 'Name' field and click Save 3. Make sure 'Username can only consist of letters, digits, spaces and characters: _-' validation message appears 4. Enter '@ @' to 'Name' field and click Save button <p>Actual result: New unit has been saved.</p> <p>Expected result: New unit is not saved. Validation message "Username can only consist of letters, digits, spaces</p>	NO
79	Confirm password error persistence	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Launch the application for the first time 2. Fill in correct Password (e.g.: "Password1!2") 3. Fill in incorrect Password in Confirm Password (e.g.:"Passwod") 4. Click "Save" button 5. Change Confirm Password to the same as Password <p>Actual result: Error message remains on below the Confirm Password field, however doesn't block user from the progression after filling in the Username</p> <p>Expected results: Error message disappears when issue with password is fixed.</p>	NO
80	No information about 'related CR's' in doc.	Usability / UX	There is no information about Related CR's in documentation (Functionalities available for users). This information is available only in section API	NO

81	Accessibility - keyboard navigation	Usability / UX	<p>We cannot expand dropdown list using tab + enter</p> <ol style="list-style-type: none"> 1. Go to Users. 2. Use keyboard navigation in filters: All roles/ all statuses. <p>Expected results: Keyboard navigation works fine Actual results: We cannot open dropdowns using tab + enter.</p>	NO
82	Edit CR in Draft - duplicated message in history	Usability / UX	<p>Wrong message in history of CR</p> <ol style="list-style-type: none"> 1. Login as employee 2. Add CR 3. Edit CR and check history. <p>Actual result: Message "change status to Draft" is duplicated. Expected result: There is only one message: "change status to Draft"</p>	NO
83	Multiply choice list - 'Provider' and 'Status'	Usability / UX	<p>Provider and Status filters are single choice list instead of multiply choice list</p> <ol style="list-style-type: none"> 1. Log in as Provider. 2. Go to CRs list view. <p>Expected result - multiple choice type field Actual result - single choice type field</p>	NO

84	Comments section visible for draft CRs	Security / Functional defect / Workaround available	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Create CR as employee in status "New" 2. As an admin approve the CR 3. Comment it as and admin 4. As an employee that created the CR edit it so it have status Draft. 5. View CR in "Single CR view" <p>Expected result: Per documentation table for "Single CR view" comments shouldn't be visible for draft CR's.</p> <p>Actual result: Comments are visible</p>	NO
85	Wrong validation message in man-days field	Error message	<ol style="list-style-type: none"> 1. Login as Provider 2. Open CR and fill man-days with wrong value e.g.: 123456.123 3. Try to save <p>Actual result: Wrong validation message: information about format - 4.2. After save this value is rounded to 4.1 format</p> <p>Expected result: The field takes numbers from 0.1 to 1000.0 inclusive</p> <p>Similar issue with wrong validation message observed in Providers -> New Provider -> Price</p>	NO

86	Archived cloned CR is changing status	Critical defect / Damage of data	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Go to employee 2. Create a CR 3. Go to admin 4. Create clone of this CR in status NEW 5. Reject this clone 6. Archive this clone 7. Go to original CR 8. Original change to Approved 9. Then to Forwarded 10. Then to Priced 11. Check both issues statuses <p>Expected result: Clone is archived, original is in status Priced Actual result: Both are in state Priced</p>	NO
87	Providers filter available for non-Provider.	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Start the application 2. Log in as Employee or Admin 3. Click 'CRs' 4. Expand 'Providers' filter field <p>Actual result: 'Providers' filer is displayed when logged in as Employee or Admin.</p> <p>Expected result: 'Providers' filer field should be available only if logged in as provider.</p>	NO

88	Status list not visible in admin profile	Usability / UX	<p>Status list is available to edit via users list. Same list is not available via admin profile.</p> <ol style="list-style-type: none"> Edit admin user via profile <p>Expected results: Status List is available.</p> <p>Actual results: Status list is not available.</p>	NO
89	Admin doesn't have full rights	Security / Functional defect / Workaround available	<p>In documentation in the table on page 13 there is info that admin should be able to process CR in statuses 'Forwarded' and 'Process' But id haven't</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none"> Create two CR Set it's statuses to 'Forwarded' and 'Process' Login to Admin and see CR list Login to provider for those CR and see CR list <p>Expected result: According to Documentation page 13, Admin and Provider should have the same rights to change statuses of that CR</p> <p>Actual result: Only Provider can change.</p>	NO

90	Wrong validation in Provider name	Error message	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Go to Dashboard 2. Choose Providers 3. Click New button 4. In Name type some special characters and at least one letter or digit (e.g "@#\$%^&*1") 5. In Price use correct price (e.g. 1.1) <p>Actual result: Provider is created</p> <p>Expected result: Provider shouldn't be created. There should be a comunicat: "Username can only consist of letters, digits, spaces and characters: _-"</p>	NO
91	Admins can delete other Admin/Provider users	Usability / UX	<p>Steps to reproduce:</p> <ol style="list-style-type: none"> 1. Create admin/provider user 2. Go to Users and click delete button <p>Expected result: No delete button available - admin supposedly not able to do so in docs</p> <p>Actual result: Admins can delete users of type Admin and provider - not employee.</p>	NO
